Summary

B.Tech CSE student at YCCE, Nagpur with hands-on experience in **Java** and **full-stack development**. Proficient in building scalable web applications, designing RESTful APIs, and solving real-world problems through clean, efficient code.

Skills

- ➢ **Programming Languages:** Java, C
- ➢ **Libraries/Framework:** React.js, Next.js, Node.js, Express.js, FastAPI, Spring Boot, Tailwind CSS
- ➢ **Databases:** MongoDB, MySQL, Supabase
- ➢ **Tools & Platforms:** Git, GitHub, Postman, CI/CD, Vercel
- ➢ **Other:** REST APIs, JWT, OAuth 2.0
- ➢ **Soft Skills:** Teamwork, Leadership, Communication

Education

- ➢ **Yeshwantrao Chavan College of engineering, Wanadongri, Nagpur** **2022 - 2026**
  Computer Science Engineering | Current CGPA: 9.07 (Expected)
- ➢ **New English Junior College, Mahal, Nagpur** **2021 - 2022**
  HSC (Class XII), Aggregate: 74.33%
- ➢ **Sangita High School, Nagpur** **2019 - 2020**
  SSC (Class X), Aggregate: 93.80%

Projects

- ➢ **SymptMeal – AI-Powered Symptom-based Diet Planner** *(https://github.com/ujjwalbokde/SymptMeal)*
  - **Tech Stack: Deep Learning, FastAPI, Next.js**, Python
  - Built a Python backend with FastAPI to generate Indian diet plans from symptoms using a deep learning model.
  - Integrated real-time REST APIs with a responsive Next.js frontend.
- ➢ **ExpenseWise – Smart Expense Tracker** *(https://github.com/ujjwalbokde/ExpenseWise)*
  - **Tech Stack: Next.js, Supabase,** JWT Authentication, RESTful APIs.
  - Developed a secure personal finance tracker using Supabase, JWT authentication, and full CRUD.
  - Designed category-wise filtering with RESTful APIs and responsive UI.
- ➢ **CivicNivaran – Smart Public Grievance Portal** *(https://github.com/ujjwalbokde/CivicNivaran)*
  - **Tech Stack:** *Next.js (JSX), Tailwind CSS, MongoDB, Express.js, JWT*
  - Built a grievance redressal platform with complaint tracking, role-based access, and analytics dashboard.
  - Implemented media uploads, status tracking, and access control for field roles.

Experience

- ➢ **Full Stack Developer Intern | AIGurukul** (Feb 2025 – June 2025)
  - Engineered full-stack web applications using React, Next.js, PostgreSQL, and FastAPI, improving performance by 30%.
  - Enhanced security with JWT & OAuth 2.0, reducing unauthorized API access attempts by 75% and securing user data.
- ➢ **Secretary | Engineering India YCCE (Social Club)** (June 2024 – June 2025)
  - Led many social initiatives, enhancing community engagement and participation by 40%.
  - Managed team coordination and event planning, ensuring smooth execution of club initiatives.

Certifications

- ➢ **Java Programming Fundamentals – Infosys Springboard**
- ➢ **The Complete Web Developer –** Full Stack Development Certification from **Udemy.**
- ➢ **Python for Data Science, AI & Development –** Issued by **IBM.**
- ➢ **Introduction to Cloud Computing –** Issued by **IBM**
